

Irwin H. Rosenberg, M.D. is an internationally recognized leader in nutrition science. Dr. Rosenberg is a University Professor at Tufts University and a senior scientist at the Jean Mayer USDA Human Nutrition Research Center on Aging. Dr. Rosenberg served as Dean of the Friedman School of Nutrition Science and Policy at Tufts University from 1995-2004. He served for 15 years as the Director of the Jean Mayer USDA Human Nutrition Research Center, which studies the interaction of aging and nutritional/dietary factors as well as the way in which diet, nutrition, and physical activity can modulate or prevent degenerative diseases of aging. The focus of his research has been on vitamin metabolism, especially folate and cardiovascular disease, as well as stroke and cognitive decline. Dr. Rosenberg has been involved in nutrition and food policy issues ranging from dietary guidelines and reference intakes to international nutrition recommendations for the elderly. Prior to joining Tufts, Dr. Rosenberg held faculty positions at Harvard Medical School and the University of Chicago, where he served as the first director of the Clinical Nutrition Research Center and helped develop a nutritional focus within the field of gastroenterology. He has served on the FDA Food Advisory Committee's Subcommittee on Folic Acid and on the IOM Subcommittee on Upper Reference Levels of Nutrients. He is a past chair of the Food and Nutrition Board and of the IOM Committee on the Use of Dietary Reference Intakes in Nutrition Labeling. Among his many honors are the Josiah Macy Faculty Award, Robert H. Herman Memorial Award of the American Society for Clinical Nutrition, and the Bristol Myers Squibb/Mead Johnson Award for Distinguished Achievement in Nutrition Research. He was elected to the Institute of Medicine of the National Academy of Sciences in 1994 and became a University Professor at Tufts in 2001.
